

Opta España

# Basic Competition Data Feed

Xml basic competition data description

## 1.- GENERAL DESCRIPTION

This xml file contains the basic data of all protagonists of a competition (teams, players, stadiums, referees, etc. etc).

The way to name these files follow the rule:

CMP\_ccccc.Xml

CMP is a fix prefix that identify the file as a fixture file.  
cccc is the competition code in 5 digits.

Example:

CMP\_00522.Xml fixture of the World cup 2010

CMP\_07563.Xml fixture of the Madrid Master 1000 of Tennis.

**NOTE:** *Opta España can add new attributes sections in this model without communicating previously to the users. Anyway the current content will be maintained.*

## 2.- DESCRIPTION

### 2.1 Header

```
<?xml version="1.0" encoding="UTF-8" standalone="yes"?>  
<Competicion>
```

### 2.2 General data section <DG>

Attributes:

| Attributes | Description                                                              |
|------------|--------------------------------------------------------------------------|
| ID         | Competition ID, number assigned by Opta                                  |
| Des        | Don't use it, it is going to disappear                                   |
| DES        | Competition description                                                  |
| CD         | Don't use it, it is going to disappear                                   |
| DEP        | Opta Spain sport code of the competition.                                |
| PG         | Points given by a won match                                              |
| PE         | Points given by draw                                                     |
| PP         | Points given by a lost match                                             |
| TEQU       | Type of team: 1= Normal, 2 = National team                               |
| FN         | File name. These name is useful if this file is pulled via HTTP          |
| FG         | File Generic name. These name is useful if this file is pulled via HTTPt |

|                  |                                                                                                             |
|------------------|-------------------------------------------------------------------------------------------------------------|
| <b>WIDCOMP</b>   | Id of the competition to be used in the Opta widgets. If value is "0", " " o "-1" means that can't be used. |
| <b>WIDSEASON</b> | Id of the season to be used in the Opta widgets. If value is "0", " " o "-1" means that can't be used.      |
| <b>TEMP</b>      | Year in four digits in which the competition starts                                                         |

## 2.3 Team section <Equipos>

| Attributes   | Description                                                                                          |
|--------------|------------------------------------------------------------------------------------------------------|
| <b>ID</b>    | ID of the team                                                                                       |
| <b>NB</b>    | Name of the team                                                                                     |
| <b>PA</b>    | Opta Spain country code, 3 chars                                                                     |
| <b>PACOI</b> | ICO country code, 3 chars                                                                            |
| <b>LO</b>    | Town, It can be empty                                                                                |
| <b>PR</b>    | State/region of the team, it can be empty                                                            |
| <b>NES</b>   | ID of the stadium where normally play                                                                |
| <b>COR</b>   | Short name of the team, 3 Chars                                                                      |
| <b>RFF</b>   | Reserved: Only if the type of team is "national" team and sport football, ranking FIFA               |
| <b>URL</b>   | Web site URL of the club                                                                             |
| <b>WIDEQ</b> | Id of the team to be used in the Opta widgets. If value is "0", " " o "-1" means that can't be used. |
| <b>FUND</b>  | Year when the club was created. If value = 0 then unknown                                            |

## 2.4 Player section <Jugadores>

| Attributes   | Description                                                                                                                                                         |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>ID</b>    | ID of the player                                                                                                                                                    |
| <b>CE</b>    | Id of the team that owns the players in this competition                                                                                                            |
| <b>NB</b>    | Alias of the player                                                                                                                                                 |
| <b>NC</b>    | Complete name of the player                                                                                                                                         |
| <b>PA</b>    | Opta Spain country code, 3 chars                                                                                                                                    |
| <b>PACOI</b> | ICO country code, 3 chars                                                                                                                                           |
| <b>FCH</b>   | Born date, 4 digits for the year, two for the month and 2 for the day. 9999 means unknown date.                                                                     |
