

StatsPerform España

Widget Tennis

1.- XML FILES

The Tennis widget requires the following xml files, which must be located on the customer server.

File	Description
POB_CCCCC_FF_JJ_PPPPP	Live Tennis Match

Where 'CCCCC' is the Opta competition id, 'FF' is the phase code, 'JJ' is the matchday number, 'PPPPP' is the match id.

2.- FICHEROS DE IDIOMAS

Fichero	Descripción
OE_IDIOMAS_TENIS_i	Languages

Where 'i' is the language id.

3.- FILES: JAVASCRIPT AND CSS

Fichero
jquery-1.10.2.min.js
widgets-opta-tenis.js
widgets-opta-tenis.css

4.- Parámetros del Widget

Param	Description	Widgets
opta-idwidget	Widget ID: Value "opta-tenis"	All
opta-fic	File name of the match to be showed. It can be obtained from the fixtures feed. Example: "POB_74394_03_01_00025.Xml"	All
opta-idioma	Language id (0=Castellano)	All
opta-carpetas	Folder list. Valores 1 = Narration 2 = Stats	All
opta-PathIdm	Url where is the language file. (GS_IDIOMAS_TENIS_i)	All
opta-PathXml	Url wher is the file of the match (opta-fich).	All
opta-PathImg	Url where are stored logos fille and other images.	All

opta-PathFotos	URL where are the players's photos	All
opta-refresh	Refresh time	All
opta-alto-com	Height of the module.	All
opta-twitter	It gives the option to show or not the 'tweets' inserted in the live section. Note: This option does not work on IE V11 and lower browsers. In this case the tweets are ignored. "Y" = The 'tweet' inserted in the Live section will be displayed. "N" = Tweets inserted in the live section are ignored. Default value is "N"	All
opta-logo	It shows opta logo or not. Y" = Logo is displayed. "N" no logo is displayed. By default its value is "Y"	All
opta-use-string-cache	Indica si a la hora de descargar archivo se añade un Trail aleatorio al nombre del fichero para evitar la cache. Posibles valores: "true": no se añadirá nada al nombre del fichero "false", se añadirá un 'trail' Por defecto = "false"	All

5.- Installation and configuration

5.1.- The installation package has some example pages to help the installation of the widget. The part they have to embed on the web is the div with id "widgets-opt-tennis-container"

5.2.- Check that all the files indicated in point 1 are located on your server. If not, contact agencia@optasports.com to register the services for these files.

5.3.- Change the value of the **opta-PathXml** parameter to indicate the path or url where the xml files are located on your server. On the example page the value of **opta-PathXml** is 'xml/' and its contents will never be updated as they are sample files.

5.4.- The **opta-fic** parameter must be changed to indicate the live file of the match you want to show

NOTE: This version does not support IE7.

6.- Web page example

```
