

Opta España

Fixture Feed

Xml fixture description

1.- GENERAL DESCRIPTION

The fixture xml files contain all the matches of a competition, defining when and where the event will be played, also the state of the match and the final result.

They include the needed information to link the others feeds files related with the competition. The way to name these files follow the rule:

CNC_ccccc.Xml

CNC is a fix prefix that identify the file as a fixture file.
cccc is the competition code in 5 digits.

Example:

CNC_00522.Xml fixture of the World cup 2010

CNC_07563.Xml fixture of the Madrid Master 1000 of Tennis.

NOTE: *Opta España can add new attributes sections in this model without communicating previously to the users. Anyway the current content will be maintained.*
